## RELEVANT EXPERIENCE

### eCommerce Product Owner & Operations Specialist

*BroadbandTV (BBTV) • Vancouver, BC • 2020 – Present*

- ▶ Led as Product Owner in ideation, strategy, approval, defining KPIs/OKRs, research, development, testing, policy and ongoing maintenance of new and existing eCommerce initiatives with teams across multiple time zones
- ▶ Developed customer surveys and analysis to provide suggested product refinements that resulted in a 60% improvement in overall sessions and increase in AOV by 20% through expanding customer interaction abilities
- ▶ Identified product gaps in SEO and internal Google Analytics and Google Merchant Center and led the technical implementation and optimization of these platforms resulting in a 12% decrease in bounce rate and sustained conversion rate increase of 1.4%

### eCommerce & Merchandising Operations Coordinator

*BroadbandTV (BBTV) • Vancouver, BC • 2019 – 2020*

- ▶ Managed 7+ Shopify and custom eCommerce platforms including daily sales and monthly KPI reporting (AOV, traffic, 3PL costs analysis and 3rd party vendor costs analysis, shipping analysis, marketing campaign ROI etc.)
- ▶ Managed Customer Service representatives and aided in escalation of customer issues that resulted in policy change and product improvements including, help centre content, internal knowledge base updates and reliable CS data
- ▶ Responsible for testing, evaluating, and maintaining cross-browser compatibility and mobile responsiveness UX for all eCommerce products ensuring accessible, low friction experiences to encourage conversion and RCR

### Test Centre Operations Administrator (Technical Support)

*Paragon Testing Enterprises • Vancouver, BC • 2018 – 2019*

- ▶ Provided technical support to over 100 global active partners including: network issues, OS configuration and feature rollout with a first touch resolution of 97%
- ▶ Developed and launched new technical documentation to aid partners in issue resolution that resulted in a reduction of quick resolve calls of 33% within a month
- ▶ Created and implemented an inventory management system with Microsoft Access, Excel and Tableau to improve efficiency and analysis of over 100 international/domestic test centres, increasing output by 13,000 items annually

### Software (iOS) Developer

*Centre for Autism, Research, Technology & Education • Victoria, BC • 2015 – 2017*

- ▶ Engineered Let's Face It! (LFI) Scrapbook, a gamified educational iPad (iOS) application for training facial expression and identity recognition
- ▶ Managed inception through launch and iteration of the full development cycle of the app including UI/UX, development, feature rollout, back log etc.
- ▶ Organized and led beta testing (47 participants) and feedback implementation and maintained technical support email and Apple updates post release
- ▶ Awards and Recognition received: Cover story of the TORCH Alumni Magazine (Spring 2016), REACH Award - Excellence in Knowledge Mobilization (2017), Craigdarroch Research Award in Knowledge and Mobilization (2017)
